

Uni-Dragon Page 1

Uni-Dragon Page 2

Create a Uni-Dragon!

1

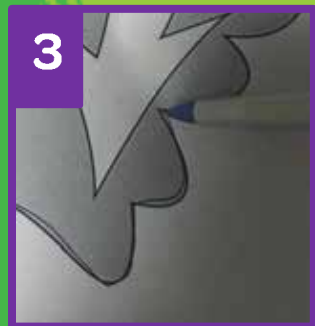

Cut off dragon accessories & put aside. Flip other paper over (dragon in circle) & cover back with chalk.

2

Align circle on paper with edge of plate. Make sure chalk side is touching plate.

3

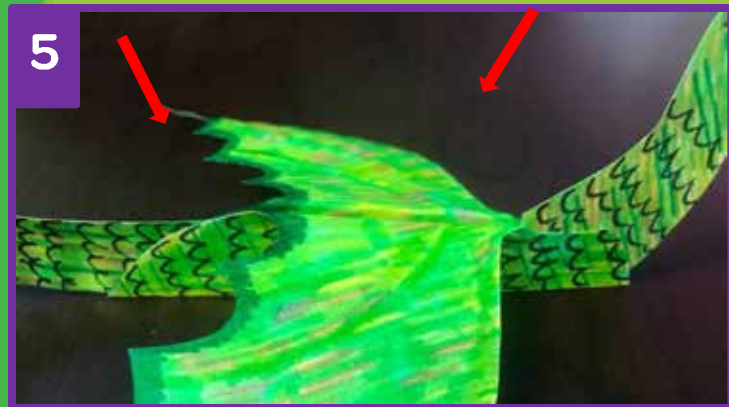

Now, firmly trace the lines of the dragon to transfer the outline to the plate. TIP: Make sure the paper doesn't move!

4

After you remove your tracing paper, you should see the outline of your dragon on the plate. Cut it out & decorate it.

5

Once decorated, fold your dragon body in half and bend wings down. Then insert your decorated head & tail into the fold (make sure they have plenty of glue on them) and glue it shut.

6

Color your favorite accessories, cut them out & glue them on to make the coolest uni-dragon EVER!!!
PS. It can fly too!
