

CARDBOARD PLAYHOUSE

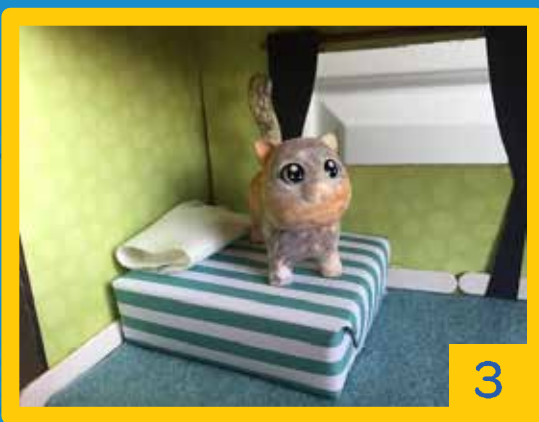

Gather supplies:

- 2 shoeboxes or small boxes
- Paintbrush
- Paint
- Construction paper
- Glue
- Scissors
- Markers
- Craft templates

Stack the 2 shoeboxes or small boxes to form the base of your house. If you're using boxes, cut off any flaps so your playhouse is always open.

The open "top" of the boxes will be the front of the house you're able to decorate. The other side becomes the back where your door(s) and window(s) go.

Build furniture for your house! There are some cutouts in our templates.

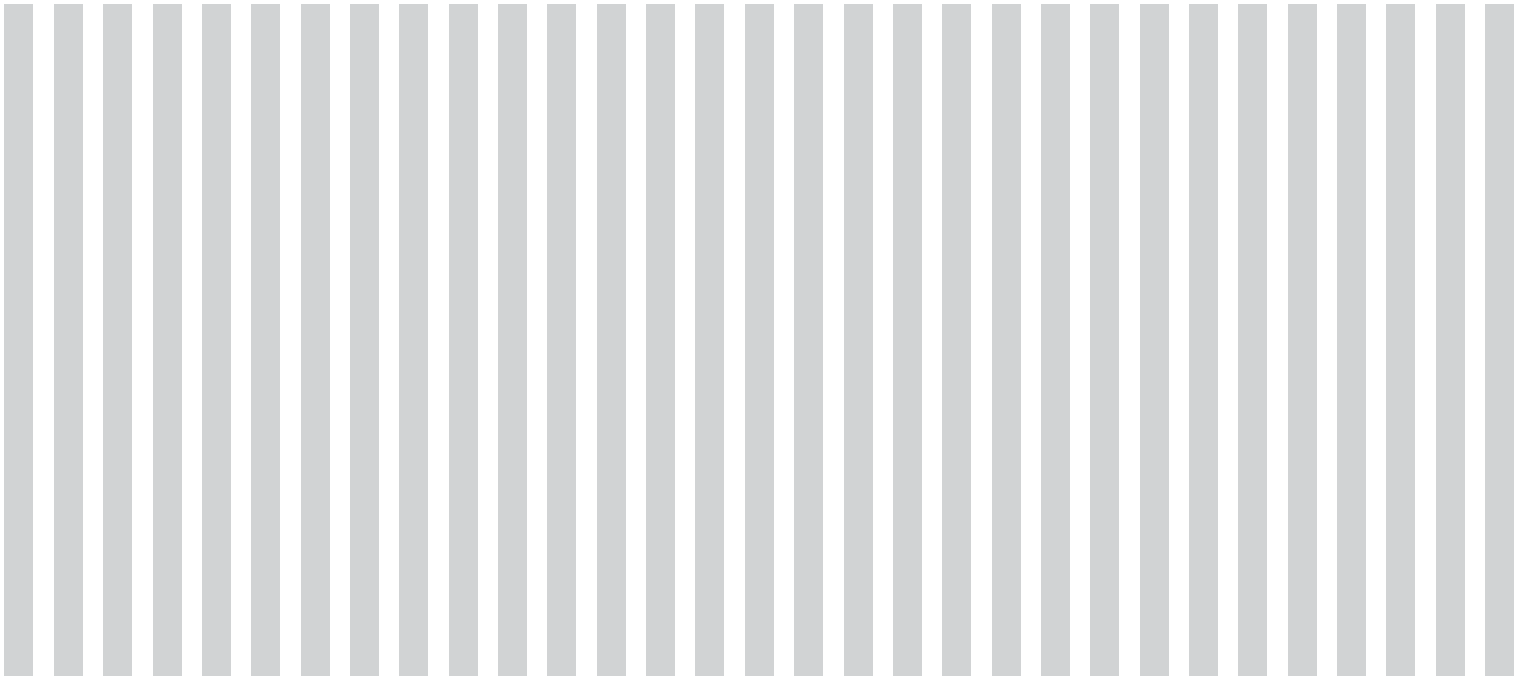

TIP: If you have a small rectangular box, you can wrap it in construction paper to form a bed! We rolled up a scrap of fabric to be a pillow on-top.

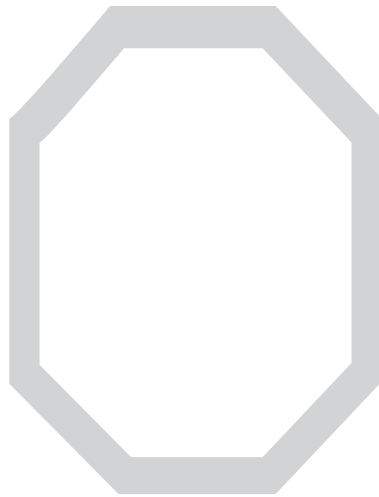

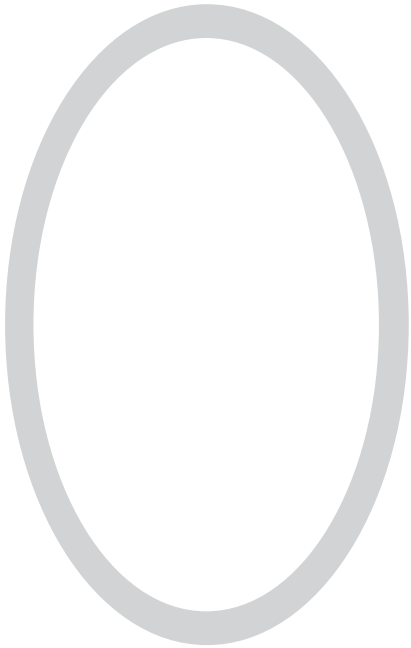

Decorating the bathroom? Check out our templates for mirrors, wallpaper and more!

TIP: Extra plastic packaging can make a great bath tub for your Scribble Scrubbie to soak in!
