

PROPERTY OF _____

CREATE YOUR OWN SAFARI CANTEEN

1

Decorate accessories page and the bottoms of 2 small paper plates. When they are dry, cut them out and glue the accessories on.

2

Partially tape plates together with the decorated sides facing out (make sure you can still open canteen up to see inside plates). Then cut about a 1.5" square out of the top.

3

Decorate a paper tube, or roll up some paper & tape it to create a cylinder. Open plates and tape rolled paper inside so that a little bit of the paper is sticking out of the square cut.

4

Punch holes on either side of the canteen and tie a string or ribbon through them to create a strap for your colorful canteen. Now you're ready to roam the Tropical Rainforest!
