CHRISTMAS CRACKER

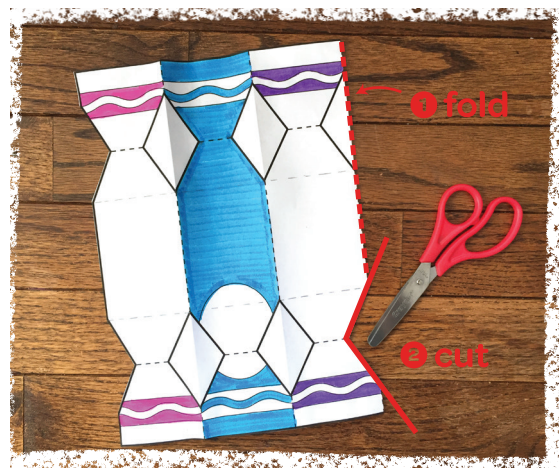

1

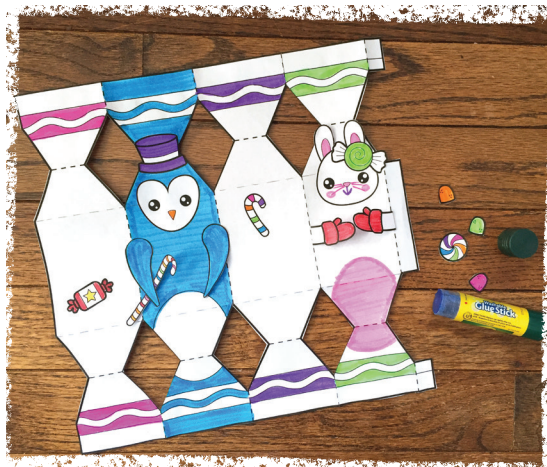

Color your cracker, accessories & holiday fortunes. Also, add a fun fortune to the blank label if you want! Cut along the solid lines. Then, fold along the dashed lines.

2

To cut the insides of the cracker out, fold them in half first, then cut along the cut line.

3

Glue the heads and accessories on, or draw your own. You may need to re-fold any folds that have accessories on them.

4

Glue the glue tabs to the underside of the last panel. You should have a rectangular tube shape. Get 2 pieces of string. Cinch the bottom pieces together and tie a string to close it. Add your prize in, then tie the other string on the top. Crack open at Christmas!
