

Spooky Scribble Scrubbies

OOEY GOOEY

Add gooey stitches by drawing lines with tick marks on them. Add drips and splats under them.

ZOMBIE

Draw stitches across the body. Then draw a pink brain peeking out from his head.

JACK-O-LANTERN

Draw triangles around the eyes, a nose and a mouth. If you have extra Model Magic, use it to make a pumpkin stem.

WITCH

Draw a cobweb in a dark color; then, fill around it in a lighter color. If you have extra Model Magic, use it to make a witch's hat.

PUMPKINS

Cover your pet in loopy lines for the vine. Draw orange circles next to it then outline them in red. Then, add leaves and vines to complete the look.

DAY OF THE DEAD

Just like your sugar skull, start by tracing the eyes with circles. Then, add petals, dots, swirls and cobwebs all over!

FALL LEAVES

Use bright colors to make different leaf shapes. Don't forget to sprinkle in some green leaves.

TIE-DYE

Color the top & bottom using colors that are similar to each other. Then paint over top with water to let the colors run together.
